GUIDANCE FOR AUTHORS

Aims and Scope: Biodiversitas, Journal of Biological Diversity or abbreviated as Biodiversitas encourages submission of manuscripts dealing with all biodiversity aspects of plants, animals and microbes at the level of the gene, species, and ecosystem as well as ethno-biology.

Article Types: The journal seeks original full-length research papers, reviews, and short communication. Manuscript of original research should be written in no more than 8,000 words (including tables and picture), or proportional with articles in this publication number. Review articles will be accommodated, while, shorter communications are written at least 2,000 words.

Submission: The journal only accepts online submission, through open journal system (https://smujo.or.id/biodiv/about/submissions) or email to the editors at unsjournals@gmail.com. Submitted manuscripts should be the original works of the author(s). The manuscript must be accompanied by a cover letter containing the article title, the first name and last name of all the authors. Spellings should be according to the citation style. Submissions of a manuscript implies that the submitted work has not been published before (except as a part of a thesis or report, or abstract); and is not being considered for publication elsewhere. When a manuscript written by a group, all authors should read and approve the final version of the submitted manuscript and its revision; and agree the submission of manuscripts for this journal. All authors should have made substantial contributions to the concept and design of the research, acquisition of the data and its analysis; drafting of the manuscript and correcting of the revision. All authors must be responsible for the quality, accuracy, and ethics of the work.

Scientific names: Scientific names and abbreviations should be used, for example, completely written butilic hydroxyl toluene (BHT) and abbreviation of chemistry name can be applied for common and clear sequence, it is better used Courier New font. Symbols of standard chemical hereinafter can be used, for example, completely written with street name and number (location), postal code, telephone number, facsimile number, and email address. Manuscript written by a group, author for correspondence along with address is required. First page of the manuscript is used for writing above information.

Abstract: should not be more than 200 words. Keywords is about five words, presenting scientific name (if any), research theme, and special methods which used; and sorted to A to Z. All important abbreviations must be defined at their first mention. Running title is about five words.

Introduction is about 400-600 words, covering the background and aims of the research. Materials and Methods should emphasize on the procedures and data analysis. Results and Discussion should be written as a series of connecting sentences, however, for manuscript with long discussion should be divided into sub-titles. Through discussion represents the causal effect mainly explains for why and how the results of the research were taken place, and do not only re-express the mentioned results in the form of sentences. Concluding sentence should be given, at the end of the discussion. Acknowledgments are expressed in a brief; all sources of institutional, private and corporate financial support for the work must be fully acknowledged, and any potential conflicts of interest are noted.

Figures and Tables: maximum of three pages should be clearly presented. The title of a picture is written below the picture, while title of a table is written above the table. Colored figures can only be accepted if the information in the manuscript can lose without those images; chart is preferred to use black and white images. Author could consign any picture or photo for the front cover, although it does not print in the manuscript. All images property of others should be mentioned source. There is no appendix, all data or data analysis are incorporated into Results and Discussions. For broad data, it can be displayed on the website as a supplement.

References: Author-year citations are required. In the text give the authors name followed by the year of publication and arrange from oldest to newest and from A to Z. In citing an article written by two authors, both of them should be mentioned, however, for three and more authors only the first author is mentioned followed by et al., for example: Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b; Cuiyijian 2004; El-Bana and Njts 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation as shown with word “cit” should be avoided. Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, pers. com. (personal communication); Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in an alphabetical order (better, if only 20 for research papers). Names of journals should be abbreviated. Always use the standard abbreviation of a journal’s name according to the ISSN List of Title Word Abbreviations (www.isn.org/2/ 22661-LTWA-online.php). The following examples are for guidance.

DNA barcoding of the tidal swamp rice (Oryza sativa) landraces from South Kalimantan, Indonesia
DINDIN HIDAYATUL MURSYIDIN, YUDHI AHMAD NAZARI, BADRUZSAUFARI, MUHAMMAD RIDHO DIN'TA MASMITRA

Molecular identification of blaCTX-M and blaTEM genes encoding extended spectrum ß-lactamase (ESBL) producing Escherichia coli isolated from raw cow’s milk in East Java, Indonesia
RIBBY ANSHARIETA, SANCACA CHASYER RAMANDINIANTO, MUSTOFA HELMI EFFENDI, HANI PLUMERIASTUTI

Short Communication:
Infanticide of Javan slow lorises (Nycticebus javanicus) in captivity
PANGDA SOPHA SUSHADI, WIRDATETI, NI LUH PUTU RISCHA PHADMACANTY, MOHAMAD WAHYUDIN

Population dynamics of mistletoes species on Cassia fistula L. in Purwodadi Botanic Garden, Indonesia
SOLIKIN

Characterization of Sardinella fimbriata and Clarias gariepinus bones
WAN NOR ASIAH TUN MOHD ROSIDI, NURAINNI MOHD ARSHAD, NOR FAZLIYANA MOHTAR

Architectural and physical properties of fungus comb from subterranean termite Macrotelermes gilvus (Isoptera: Termitidae) mound
DINA TIARA KUSUMAWARDHANI, DODI NANDIKA, LINA KARLINASARI, ARINANA, IRMANIDA BATUBARA

DNA barcode of Enggano hill myna, Gracula religiosa enganensis (Aves: Sturnidae) based on mitochondrial DNA cytochrome oxidase subunit I
JARULIS, CHOIRUL MUSLIM, SANTI NURUL KAMILAH, AHMAT FAKHRI UTAMA, DEBY PERMANA, MELISA MAYANG SARI, ALEX HADI PRAYITNO, IZUL MIKTAHUL JAHAN

Genetic variation of longtail tuna Thunnus tonggol landed in four fish markets in Indonesia based on mitochondrial DNA
IDA AYU ASTARINI, ENEX YUNIARTI NINGSIH, DEVY SIMANUNGKALIT, SHELLA AYU ARDIANA, M DANIE AL MALIK, NI LUH ASTRIA YUSMALINDA, ANDRIANI SEMBERING, NI PUTU DIAN PERTIWI, NI KADEK DITA CAHYANI, ALLEN COLLINS

The effect of biological agent and botanical fungicides on maize downy mildew
JOKO PRASETYO, CIPTA GINTING, HASRIADI MAT AKIN, RADIX SUHARJO, AININ NISWATI, AULIANA AFANDI, REZA ADIWJAYA, SUDIONO, MUHAMMAD NURDIN

Six new species and a new record of Curcuma L. (Zingiberaceae) from Thailand
SURAPON SAENSOUK, THAWATPHONG BOONMA, PIYAPORN SAENSOUK

Combination of plant growth-promoting bacteria and botanical pesticide increases organic red rice yield and reduces the Leptocorisa acuta population
MOHAMMAD HOESAIN, Sigit PRASTOWO, SUHARTO, ANKARDIANSYAH PANDU PRADANA, IIS NUR ASYIAH, FARIZ KUSTIAWAN ALFARIZY, MUH ADIWENA

Agronomic characteristics of 30 promising lines of aromatic, red, and black rice and their antioxidant and cytotoxic effects in some cancer cells
YUSUF LIMBONGAN, RICO RAMADHAN, KUNIYOSHI SHIMIZU, ENOS TANGKE ARUNG
The potential of bird diversity in the urban landscape for birdwatching in Java, Indonesia
